

ARROW UNIFORM

Arrow Health & Safety, a leading national provider of safety products and solutions, is proud to offer to all our valued customers the sale of the HeartStart OnSite AED (Automated External Defibrillator). Manufactured by Philips Medical Systems - the worldwide leader in the AED industry - the HeartStart OnSite AED is the most popular and user-friendly AED available.

- **Lightweight design means a fully equipped unit weighs only 3.3 pounds**
- **Clear visual and voice instructions provide the confidence that's needed when administering therapy to a person in cardiac arrest**
- **Each unit is powered by a long-lasting disposable battery. Batteries last up to four years in stand-by mode. A spare battery to be stored with the unit is recommended.**
- **HeartStart Defibrillators are safe for use on anyone of any age, including children and infants**
- **Patented SMART analysis heart rhythm assessment and SMART biphasic defibrillation therapy, clinically proven in nearly ten years of use.**

The HeartStart will determine if a shock is needed based on the victim's heart rhythm.

- **All AED purchases include on-site training by an Arrow representative**
